SONGS OF LEADERSHIP 2021

Sung to the tune of "Rather Be"

We're 8000 feet in elevation
We really need to pee
But as long as Kitty Kat is with us
There's no place we'd rather be

We've been walking for hours
Traveling aimlessly
But as long as we have honeystingers
There's no place we'd rather be

With every step we take
We feel our ankles break
We walk so slowly

We follow Kitty's pace
With record bathroom breaks
We crushed that nature pee

If you gave us more food
We would eat it
Five pieces of orange chicken just ain't it
Know without all the complaining, we wouldn't make it
Where the heck are we
And where is Michael Valle

No, no, no, don't lose those three
No, no, no, not chef V
No, no, no, no so many places we'd rather be

What's the third destination
Eduardo stop starting dirty
The hike is never ending

Slevy's our EMT
The lake was closed day one
Thank you storm warning
And if Blatt keeps complaining
Off the cliff he'll be

Leor can’t breathe
We saw dead Bambi
We strolled by casually

Everyone was chafing
It started raining
The lake was muddy

Three hours is not 20 minutes
We need a break, how come we’re not finished
Is that body of water Lake Perris?
When we’re together
There’s no place we’d rather be!

(Toby only: Kathy!)
