

# SONGS OF LEADERSHIP 1970

## Sung To The Tune Of "We Ain't Marchin' Anymore"

We hiked up to Boney and down again,  
Our spirits were high, our feet were sore  
And all the while we're walkin', all of us were talkin'  
We ain't a hikin' anymore!

Chorus:     The guys were always there to lend a helping hand,  
              Whenever the girls would slip  
              And now we're one big crowd and brother are we proud  
              Of '70 Leadership

Then we came down to Circle X  
Water on our heads we did pour  
Temperature 110 and then they made us hike again  
We ain't a hikin' anymore (Chorus)

Hiking along the twisted trail  
Water, we always wanted more  
Our bodies felt like they were dead  
And our feet were good and red,  
We ain't a hikin' anymore (Chorus)

## Sung To The Tune Of "We Can't Help But Wonder Where We're Bound"

It's a long a sweaty hike, but it's the one we all like  
The end, it seemed so far away  
Parts were hard and parts were fun, parts were hiking in the sun  
But now we're all back here alive

Chorus:     And we can't help but wonder where we're bound  
              Where we're bound, and we can't help but wonder where we're bound

From Boney to Circle X, and then on to Terry's place  
All the while we kept a steady pace  
We had our water fights, never lost our appetites  
Our friendship will last us all our lives (Chorus)

## Keep The Faith

We hiked to Boney and that's no joke (So keep the faith)  
Amid the flies and poison oak (So keep the faith)

At Echo Rock we stopped to yell (So keep the faith)  
And told some people to go to... (So keep the faith)

Split Rock was really a blast (So keep the faith)  
We wish it's water would always last (So keep the faith)  
At the top of Boney we stopped to eat (So keep the faith)  
We used the rocks to rest our feet (So keep the faith)

On the way down we forgot to pack (So keep the faith)  
We sent Mark to get it back (So keep the faith)  
At Circle X where we had come (So keep the faith)  
We used the water to have some fun (So keep the faith)

The next day on the trail (So keep the faith)  
Our spirits never did fail (So keep the faith)  
Oh mighty Leadership, go mighty Leadership (So keep the faith)

Now we're back and we're so proud (So keep the faith)  
We're gonna yell it really loud (So keep the faith)  
Leadership '70 – Kept the faith!

### **Sung To The Tune Of “Wouldn't It Be Lover-ly” – The Water Fight Song**

Jules and Sherri are in the dirt, stuffing watermelon down each shirt  
Trying to get each other hurt, Oh, aren't they lover-ly

Steve must get into the show, holding water away he goes  
Over the head of Jules, oh no!, Oh, aren't they lover-ly

Josh thinks something must be done, and so he moves in too  
Pouring water over the head, of you know who – Steve!  
Now he's a soggy Jew!

Artie doesn't think it's right, he knows how to stop this fight  
Let air out of Steve's tires a mite  
Oh, aren't they lover-ly splatt, lover-ly crash, loverly splash, lover-ly gush, lover-ly

### **Water Medley**

#### **Sung To The Tune Of “A Letter To Eve”**

Oh Artie, go tell Bernie, we got to have more water  
Oh Mark, go tell Mae, we got to have more water

Ellen and Laurie say we can't drink it  
And Jules warns us not to sneak it  
Oh 7-0 Leadership is thirsty

**"Frosty The Snowman"**

Frosty the snowman, melted and Leadership drank him up!

**"Hey Jude"**

Hey Jules, please bring us down  
Take a dry hike and make it wetter  
Remember, to fill up your canteen  
Please don't be mean, program director

You can take your canteen with you, but you can't drink any of the water

The volunteer Fire Brigade is the best fire brigade in all of Yugoslavia  
And then one day, Leadership came, and drank up Yugoslavia

**"Help"**

Help! We need some water, Help, it's getting hotter  
Help! Even Kramer water, Helllp!!!

**"Give Peace A Chance"**

All we are saying, is give us a drink  
All we are saying, is give us a drink

What do you want? Water!!!
